

How do you
know we are
the best?

▶ We are WRC Certified which affirms operational excellence within the staffing industry pertaining to safety and risk management, including:

- Operating facilities
- Pre-employment
- Personnel records
- Interview and employee selection
- Employee orientation
- Client selection and safety partnership
- Accident and injury investigations
- Modified duty
- Claims management

▶ Our Recruiters are CSP Certified. The CSP™ program enhances the competency and knowledge of labor and employment law of any professional who interacts with candidates, employees, and clients.

American Staffing Association

Certified Staffing Professional™

WRC Certified companies offer superior matching of talent, preservation of the safety record of their clients (OSHA 300 logs), lower turnover, and increased productivity among the other benefits of working with a safety conscious staffing service.

The Source for your Workforce!

A Staffing Plan That Fits

- **Temporary or Contract Staffing:**
Trim overhead by matching your workforce to your workload. We provide reliable, experienced employees – when and where you need them.
- **Trial-to-Hire:**
Virtually guarantees hiring success by allowing you to test new employees on a temporary basis before committing to a full-time hiring decision.
- **Direct Hire/ Professional Placement:**
Shorten your search for top talent. By direct recruiting, we'll find the people you really want to hire.
- **On-Site Management:**
Let WorkSource reduce your staffing costs by providing a dedicated staffing coordinator who works at your site to manage your temporary workforce.
- **Outplacement Services:**
If you're downsizing, WorkSource can provide career transition services to help your employees find new opportunities.

WorkSource Employee Assessments

To help you hire the best employees, we offer a wide range of candidate assessment tests.

Our testing capabilities include:

Warehouse & Distribution Assessments:

Productivity, Accuracy, Safety, Forklift, Matching, Count & Stack, and Color Identification.
